**RXT 72**

# STOW-AND-GO EXPANDABLE COUNTER

**RETAIL X-tension™**

## Specifications (Short Form)

Provide Multiteria Model # **RXT 72** to be constructed with heavy duty 1" welded stainless steel tubular frame and laminated front and side panels made from 3/4" laminated medium density fiberboard. Counter top to be manufactured with 14-gauge stainless steel with 1-1/2" top turndown. All welds to be ground and polished to provide #4 finish. Unit in closed position is 32" x 72" x 77"H (designed to fit through common doorways). Locking mechanism to hold 48" expansion section in closed position when moving. Unit in extended position increases length by 48" to O.A. size 32" x 120" x 77"H. Casters (6 ea.) are 6" heavy-duty, all swivel.

## Electrical

Single 120 VAC power supply cord for tower lighting and two each 15 amp convenience receptacles. Single switch for tower lighting.

## Body Frame

Counter to have 4' expandable section equipped with locking mechanism to secure expanding section within main counter body during transport.

## Tower With LED Lighting

All-stainless steel tower construction with stainless steel structural supports for rigidity. Includes removable access panels for service and maintenance. Tower to have backlit plexiglass signage plate with laser cut stainless steel cover (consult factory for specific lettering.) Lettering can be removed at customer choice (consult factory). Tower to support cantilevered U-shaped LED light fixture over main counter.
