

SAFE-SHIELD™

MODULAR SERVING SHIELDS

SAFE-SHIELD Modular Serving Shields are the easy solution to provide additional protection needed for serving lines of all types. They can convert both existing food guards and flat counters, to provide safer food serving for servers and patrons. Shields include integrated stands, so no installation is required - just set them on counters or on top of food guards.

Model MAB-4723 (over food guard application)

DESIGN FEATURES

- ▶ Made of durable 1/4" clear acrylic
- ▶ Light-weight for easy positioning
- ▶ Available in 23 3/4" and 42" heights for placement on existing food guards and flat counters
- ▶ Acrylic stands are 12" wide for upright stability and snap easily into shield panels
- ▶ Larger counter models include a 15" wide by 6" high pass-through opening

Model MAB-4724 (flat counter top application)
