MPCS-G-ADA	ADA Compliant	270

SPECIFICATIONS

General:

Provide Multiteria Model _____ (MPCS-G, MPCS-G-ADA), to be constructed with heavy-duty all-welded stainless steel rigid frame. Countertop to be manufactured with 14-gauge stainless steel with 1 1/2" top turndown, with centered grommetted cord passage opening. All welds to be ground and polished to provide #4 finish. Counter to have removable stainless steel front/end panels. Fold-down 12" wide stainless steel tray slide (optional) is full-length with triple "V" ridge top surface, and is removable without tools. Locking stainless steel cash drawer with compartment insert is included model MPCS-G (optional on model MPCS-G-ADA, except 32" height version). Interior compartment includes an empty data box and a 5-15R GFCI duplex power outlet, wired to 8' cordset with 5-15P plug. UL listed electrical and sanitation.

Body Frame:

Core and shell is 100% stainless steel formed structural box ends, all TIG welded in place, no rivets or fasteners. Body frame is designed to accept optional TIGHT LINK™ (patented) fastening system for multiple counters. Base on model MPCS-G to be furnished with removable stainless steel undershelf. Unit has four ea. 6" heavy-duty swivel casters, two ea. with brake.

Front & End Panels:

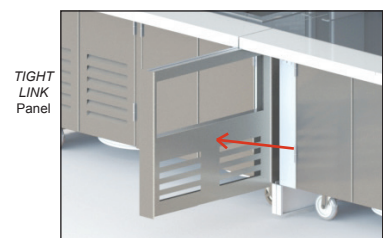

All stainless steel panels are to be 18-gauge. Optional MDO panels are 3/4" thick with standard plastic laminate on front and white laminate interior. Panels are removable for service access. Millwork end panels are removable without tools.

Optional TIGHT LINK™ System

Patented system features slide-in panels that link adjacent counters together their entire depth and height to eliminate top, front and rear horizontal and vertical gaps between equipment. Linking panels are open to allow mechanical connections to run through adjoining counters without having to cut access holes, reducing the number of building mechanicals required to connect equipment.

Limited Warranty:

Core and shell has a lifetime warranty against weld or structural support failure.
